

Dear participant of the VI Mexican School (DGFM) "Approaches to Quantum Gravity",

First of all we would like to thank you for your participation in our VI school. We believe the conference was very successful, but of course we would like to hear any comments you might have in order to improve our future conferences.

We would also like to inform you about two things:

1) The picture of the event will be posted shortly in our web page:

<http://www.nuclecu.unam.mx/~gravit/EscuelaVI/>

2) As was informed during the conference, the proceedings of the School will be published in the "Journal of Physics: Conference Series", which is a relatively new journal of the Institute of Physics (IoP). This publication is a formal journal and hence manuscripts will be reviewed by international referees. We kindly ask the participants of the school that have given a talk or presented a poster to prepare their manuscripts as is explained in the web page of the journal:

<http://www.iop.org/EJ/authors/-page=authinfo/1742-6596/1>

To prepare your manuscript, please follow the instructions given there. In particular, please download the compressed information located in the section "LaTeX2e guidelines and class file" of this web page. There you will find the proper documentation to illustrate how to use the class file and other details.

The manuscript can be written in "letter" or "a4" paper sized journal format, and its length is as follows:

Courses: maximum 24 pages.

Plenaries and short talks: maximum 10 pages.

Parallel talks and posters: maximum 6 pages.

Please send your manuscript both to Jorge Cervantes (jorge@nuclear.inin.mx) and Miguel Alcubierre (malcubi@nuclecu.unam.mx) by February, 28th 2005, at the latest.

Best regards,

Miguel Alcubierre <malcubi@nuclecu.unam.mx>

Jorge Cervantes <jorge@nuclear.inin.mx>

Merced Montesinos <merced@fis.cinvestav.mx>
